Product

NP-PAN-CRADLE
CF27, 28, 29 & 30 CRADLE

Date

Rev. B

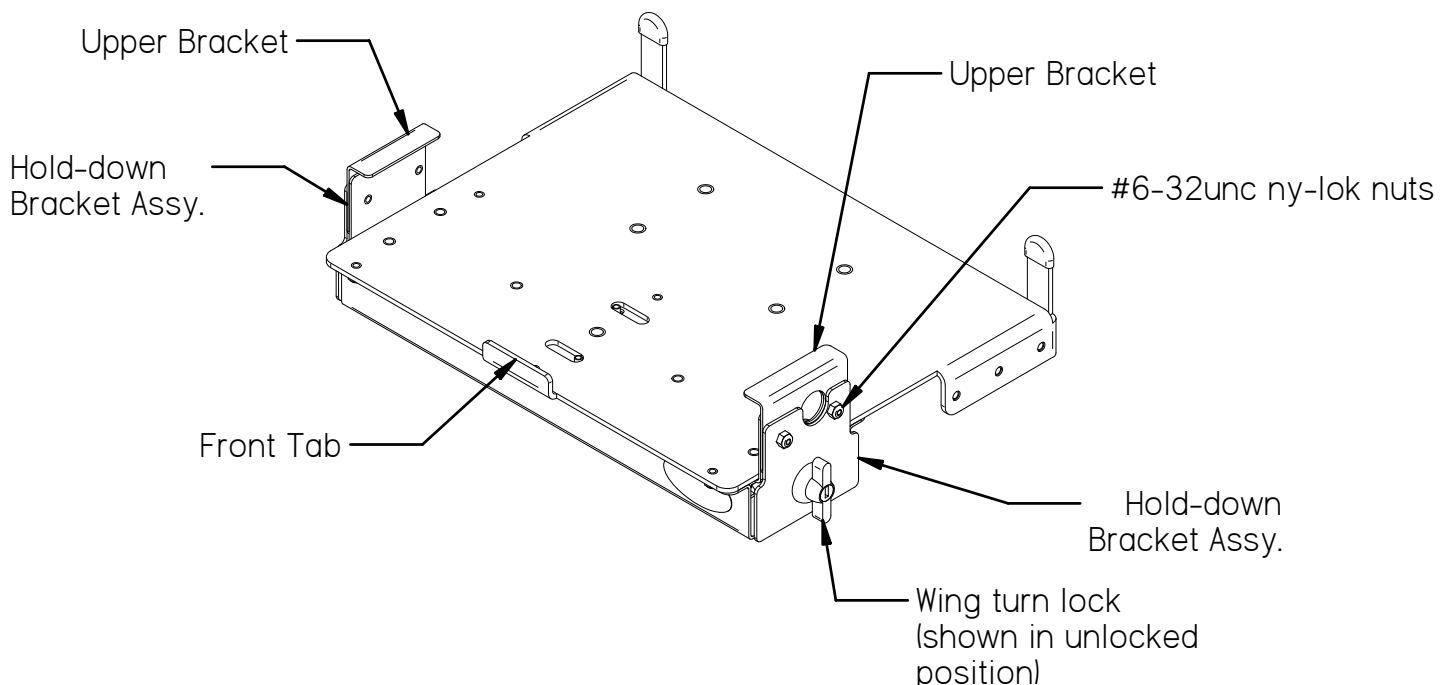

Form

INST-213

The **NP-PAN-CRADLE** is a universal cradle designed to hold the Panasonic CF27, 28, 29 & 30 computers.

Adjusting the hold-down brackets: See figure below

1. Unlock the unit and rotate the wing turn lock 90 deg. in the counter clockwise direction. The wing turn lock should be in the vertical direction as shown below.
2. Pull the hold-down bracket assemblies outward away from the sides of the cradle to open the unit. The hold-down brackets should open approximately 1" in both directions.
3. Insert the computer you are going to use into the cradle. The front tab will help you line up the computer from side to side.
4. Loosen the (2) #6-32unc ny-lok nuts located on the outside of the hold-down brackets.
5. With the computer screen open, push the hold-down brackets back into the cradle. The upper brackets should be resting on the top of the keyboard surface.
6. Tighten the #6-32unc ny-lok nuts (loosened in step 3) that hold the upper brackets in place.
7. You are now finished adjusting the hold-down brackets.

Accessories:

- 1 The **LED Light 7160-0095** will attach directly to either side of the cradle with the machine screws and flat washers provided in the hardware bag that comes with the light. See Figure 2.
2. The **Screen Support 7110-0643** will attach directly to either side of of the cradle with the machine screws and flat washers provided in the hardware bag that comes with the screen support. See Figure 3.
